PLANT'S CHOICE[®] ORGANIC SOIL AMENDMENT

(Please state the product name and reference number when specifying and/or ordering)

PRODUCT REFERENCE: OSA100

Plant's Choice[®] Organic Soil Amendment is produced from compostable material (green waste with some food waste) at a permitted composting facility. The compostable material is high in organic matter, micronutrients and microorganisms. It is dark earthy brown in color and typically possesses a pH of between 5.8 to 7.5.

Compostable material is subject to size reduction using a grinder prior to composting. Upon completion of the process, the material is screened using half (1/2) inch screens. A small percentage of larger/finer materials may be present.

Organic Soil Amendment is screened to meet Plant's Choice specification. Overall, there is a high consistency in the quality of the material.

Plant's Choice Organic Soil Amendment complies with SB1383 requirements.

The product is excellent as a soil amendment for mixing into existing soil or making topsoil blend/planting mix. It can be applied with Mulch Blowing Equipment.

Please review a sample of the material before ordering. Customer is fully responsible for compliance and approval by supervising General Contractor, Architect or Engineer.

A Plant's Choice professional is available to answer any question(s) you may have and/or to assist you with the use of Plant's Choice[®] OSA 100.

Specification data subject to change.

Limitation of Warranties: Seller makes no warranty of any kind, expressed or implied, regarding the materials; and all warranties, including any implied warranty of merchantability and any implied warranty of fitness for a particular purpose, are hereby excluded. All sales are subject to the Plant's Choice Limitation of Liability Terms, Mulch Blowing Terms, and General Terms and Conditions.
